CLDK378A2X01B Roll over study in patients with ALK postive malignancies

23/08/2025 08:09:29

Main Information	
Primary registry identifying number	Protocol number
LBCTR2019010182	CLDK378A2X01B
MOH registration number 53628/2018	
Study registered at the country of origin	Study registered at the country of origin: Specify
Yes	
Type of registration	Type of registration: Justify
Prospective	N/A
Date of registration in national regulatory agency 27/12/2018	
Primary sponsor	Primary sponsor: Country of origin
Novartis Pharma Services Inc.	Novartis Pharmaceuticals
Date of registration in primary registry	Date of registration in national regulatory agency
30/12/2021	27/12/2018
Public title	Acronym
CLDK378A2X01B Roll over study in patients with ALK postive malignancies	
Scientific title	Acronym
An open-label, multi-center, Phase IV, roll-over study in patients with ALK positive malignancies who have completed a prior Novartis-sponsored ceritinib (LDK378) study and are judged by the investigator to benefit from continued treatment with ceritinib	
Brief summary of the study: English	
The rollover study will provide ceritinib to patients who are currently receiving treatment with ceritinib within a Novartis-sponsored study and in the opinion of the investigator, would benefit from continued treatment with ceritinib.	
Brief summary of the study: Arabic	
متعددة المراكز وتكميليَّة لدى مرضى مصابين بأورام خبيثة إيجابيَّة كيناز الورم اللمفي الكشمي والذين من مواصلة العلاج بسيريتينيب (LDK378) أنجزوا دراسة سابقة رعتها نوفارتيس حول سيريتينيب	دراسة مرحلة رابعة مفتوحة اللصاقة و وقرّر الباحث أنّهم يستفيدون
Health conditions/problem studied: Specify	
Non Small Cell Lung Cancer	
Interventions: Specify	
Drug : Ceritinib (Zykadia) capsules	
Key inclusion and exclusion criteria: Inclusion criteria	
 Patient is currently receiving treatment with ceritinib within a Novartis-spotential of the Investigator, would benefit from contistent has demonstrated compliance, as assessed by the investigator. 	nued treatment.

•Willingness and ability to comply with scheduled visits, treatment plans and any other study procedures.

REPUBLIC OF LEBANON MINISTRY OF PUBLIC HEALTH Lebanon Clinical Trials Registry

•Written informed consent obtained prior to enrolling in the roll-over study and receiving study medication. If consent cannot be expressed in writing, it must be formally documented and witnessed via an independent trusted witness.

Key inclusion and exclusion criteria: Specify gender
Key inclusion and exclusion criteria: Age maximum
99
+

Key inclusion and exclusion criteria: Exclusion criteria

Patient has been permanently and prematurely discontinued from ceritinib study treatment in the parent study due to any reason.
Patient currently has unresolved toxicities for which ceritinib dosing has been interrupted in the parent study.

•Pregnant or nursing (lactating) women, where pregnancy is defined as the state of a female after conception and until the termination of gestation, confirmed by a positive serum hCG laboratory test.

•Women of child-bearing potential, defined as all women physiologically capable of becoming pregnant, unless they are using highly effective methods of contraception during dosing and for 3 months afer stopping ceritinib treatment.

•Sexually active males unless they use a condom during intercourse while taking drug and for 3 months after stopping ceritinib and should not father a child for at least 3 months after the last dose of treatment.

Zykadia	
Type of IMP	
Othere	

Others

Pharmaceutical class

Ceritinib is a potent adenosine triphosphate (ATP)-competitive inhibitor of ALK kinase activity.

Therapeutic indication

patients with ALK positive malignancies Non small cell Lung Cancer

Therapeutic benefit

- To collect safety data: adverse events and serious adverse events
- To evaluate clinical benefit as assessed by the investigator
